

TECHNICAL DATA SHEET

ODORGON

BIOLOGICAL ODOR NEUTRALIZER/FRESHENER SPRAYER

ODORGON, is an Air Freshener - Liquid Sprayer, that contains a natural active ingredient that is capable of encapsulating and neutralizing a wide range of malodorous molecules and replace them by a fresh scent. The active ingredient forms a complex with odor causing organic compounds.

Highly effective odor neutralizer against;

- Tobacco smoke
- Cooking smells from fish, grease and vegetables
- Body odors
- Animals
- Fabric odors

Can be sold Ready-To-Use or in concentrates.

The features of the concentrate;

- Liquid
- Easy to formulate
- Can effectively be used with or without fragrance
- Completely water soluble
- No need to add solubilizers
- No patent restrictions

Applications include;

Deodorize spaces (cars, rooms, hotels, etc...)

Deodorize fabric and textiles (carpets, curtains, etc...)

Deodorize bathrooms and kitchens, etc...
