

TECHNICAL DATA SHEET

TZB-22

SURFACE CLEANER AND ODOUR CONTROLLER

TZB-22 is a multiple spore blend concentrated, manufactured specifically for large volume accounts with formulations capabilities.

TZB-22 contains synergistic bio-strains, surfactants, nutrients and stimulants that ensure excellent breakdown of starches, carbohydrates, protein fats and greases. It destroys these odour-causing compounds.

TZB-22 is a fully formulated low cost bio-blend.

Can be use for:

- Controlling odour in garbage pail, dumpsters, garbage trucks, landfill and municipal sludge and septic tanks;
- Eliminating carpet odour;
- Bathroom maintenance (surface cleaning and odour control);
- Laundry and fitness facilities.

SPECIFICATIONS
